# Iris — Peonies Perennials

1930-31

FILLMORE GARDENS  
Ohiowa, Nebraska

$\frac{3}{4}$  miles North and  $3\frac{1}{2}$  miles West of Ohiowa;  $\frac{3}{4}$  miles North  
and  $3\frac{1}{2}$  miles East of Strang

# Please Read Carefully Before Ordering

## PLEASE READ CAREFULLY BEFORE ORDERING —

Cash with order.

Postage paid on **all orders** amounting to \$2.00 or over. For orders of less than \$2.00, add **25c** extra for postage and packing.

**IRIS** orders filled after July 15th; **PEONY** orders after September 1st; other plants and bulbs at proper planting time.

Visitors welcome during the blooming season, usually from April 15th to June 10th. Plants in bloom may be reserved for later delivery by paying a deposit of 25%.

Cut flowers in season.

**PRICES** are for one standard Rhizome of Iris, 3 to 5 eye divisions of Peonies. Others will be thrifty plants which should grow well in your garden; however, as we have no control over the growing conditions in your garden, we cannot under any circumstances, guarantee our plants and bulbs to grow after leaving our hands.

All plants, bulbs, etc., guaranteed true to name.

**ALL ORDERS** subject to prior sale and to change of price if stock is depleted.

**PRICES** of Iris and Peonies, like wheat and corn, are subject to quantity available and the demand for same. Some of the very finest Iris and Peonies are reasonable in price while the new and scarce varieties are usually extremely high in price.

If one follows the ratings of the A. I. S. and A. P. S. in making their choice, no very serious mistakes will be made.

**RATINGS** for Iris: The American Iris Society ratings for 1927 are given where available; the exhibition rating is given first, then the garden rating. The word 'new' preceding a variety means that it has not yet been rated.

95 means almost perfect	80 good
90 very fine	70 good
85 fine	60 fair
50 poor	

**For Peonies:** The number preceding the name of the Peony, indicates its degree of perfection as rated by the American Peony Society—100 being perfect.

Please note the uniformly high ratings of both the Iris and the Peonies raised in Fillmore Gardens.

## INTERMEDIATES

These follow the Dwarfs and are winding up their blooming season just as the Tall Bearded Iris are beginning to bloom. The new varieties by Sass are the last word in large size, fine coloring, and heavy substance. The others are fine old favorites. The varieties in this section are almost too tall for rock gardens but are especially fine in front of taller varieties in the border.

	<b>New Challenger</b> (Jacob Sass)—1930. Dark purple.....	\$15.00
70-70	<b>Dorothea</b> (Caparne)—1901. Pale blue.....	.50
	<b>New Doxa</b> (Sass)—1929. (Formerly Olive Giant). Pale olive	
	green, edged pale lavender and heavily reticulated red	
	purple on the falls. Scarce.....	25.00
76-75	<b>Florentina</b> . White. (The fragrant Iris common everywhere).	
	.....2 for .25; 12 for	1.00

71-80	Halfdan (Goos and Koenemann)—1908. Creamy white.....	.50
76-79	Ingeborg (Goos and Koenemann)—1908. Fine early white. .....2 for .25; 12 for	1.00
75-80	Kochi (Wild type)—20 in. Bright rich red purple..... .....2 for .25; 12 for	1.00
	New Nymph (H. P. Sass)—1926. 24 in. Deep yellow.....	5.00
	New Otoe (Sass)—1928. This is a fine new red-toned inter- mediate .....	5.00
	Primavera (Mohr)—1926. 28 in. Very large uniform yellow	2.50
	Queen Flavia—Yellow .....	.50
	Rose Unique—early pinkish lavender.....	.50
	New Rugosa (H. P. Sass)—1929. 26. Mr. Sass says this is one of the best purple blends of his Intermediates.....	25.00
81-92	Soledad (Mohr)—1924. 18-24 in. Very charming yellow. A. M. A. I. S. '28.....	1.50
79-74	Zua (Crawford)—1914. Pearl gray. Fragrant. Crepy petals	.75

### TALL BEARDED IRIS

The Garden Club of America has voted the Iris the most popular garden flower. There are many good reasons why every garden should have Iris nowadays. The Iris comes at a time when other perennials are scarce. By using several different species, as well as several varieties of each species, the season of Iris bloom may be extended over a period of three months or more.

The tall bearded group is the most popular and in recent years, the new varieties brought out have given us many new colors and color combinations, amply justifying its name, "The Rainbow Flower." The Iris has also been called "Poor Man's Orchid" with good reason. It is cheap and much more easily raised than the rare orchids, while some varieties of the Iris are more beautiful.

The culture of Iris is very easy, except some of the new varieties which must be given special care. Sun and good drainage are essential. Plant the rhizome like a duck on water, firming the soil about the roots well. Too much water causes rot.

#### COLOR GROUP ONE: White Self Tone—

	Argentina (Mohr)—1924. Large tall white.....	\$ 2.50
	Arlette (Cayaux)—1924. Rich creamy white. Gold beard.....	5.00

15 for **\$1.00**                      100 for **\$5.00**

## Peonies

We are planting a show garden of Peonies, Iris, Columbine, Tulips, Gladiolas, etc., and expect to have representative blom on the peonies in about three years time. Do not worry if the peony blossoms are not true to type the first two years. It is just as well to pinch out the buds the first year, allowing the plant all the opportunity possible to get ready to produce the gorgeous blooms which get finer and larger as the plant ages. A well established peony clump will last a life time, therefore it is well to give some thought to the preparation of the soil. The buds should be set about two inches below the surface, with dirt well firmed about the root. It is well to dig a hole two feet square and about eighteen inches deep. Well decayed manure may be placed in bottom of hole; but do not let manure come in contact with root or crown, as it causes decay. On poor soils bone meal may be used as a top dressing. The rich, deep black loam we have here requires nothing more than moisture to produce the finest blossoms.

A choice list of the world's best Double Peonies with a few of the very best single and Japanese varieties:

88	Addielanchia (Brand)—Pure white. Beautiful.....	\$10.00
85	Adolph Rousseau (Dessert)—Rich dark red, early, each.....	2.00
